Continuation Sheet (PTO-303)

Application No.

Continuation of Item 11:

Claim 26:

Claim 26 applies a computer program as part of a seemingly patentable apparatus, however, claim 26 in reality seeks patent protection for the computer program as evidenced by claim 27 in the abstract. Computer program per se is neither computer components nor statutory process. Thus, claim 26 is non-statutory.

Additionally, since claim 26 includes a 101 judicial exception, claim 26 must be for a practical application of the judicial exception. As is, claim 26 failed to recite either a physical transformation or produces a useful and tangible result. Thus, claim 26 is also non-statutory for this reason.

Claim 24 is non-statutory for the same reasons discussed above.

Claims 27-28:

Additionally, since claim 27 includes a 101 judicial exception, claim 27 must be for a practical application of the judicial exception. As is, claim 27 failed to recite either a physical transformation or produces a useful and tangible result. Thus, claim 27 is also non-statutory for this reason.

Claim 28 is non-statutory for the same reasons discussed above.
